

Our products...

Wednesday, 05 December 2007

Our main products are Microfinance applications, Corporate Portals and related professional services.

Microfinances.net is a product that offers the "state-of-the-art" for micro finance organizations.

M.net, made in collaboration with Microsoft Corporation, belongs to the third generation of specific applications for Micro finance, developed by Innova.

Our systems are installed in different countries across the Americas, the US and Africa.
