

WHO ARE WE?

Thursday, 06 December 2007

We specialized in development and integration of information technology solutions based on Web. Our main products are applications for Microfinances, Corporate Portals and related professional services. Our market is global and our systems are installed in different countries, of Latin America, USA and Africa.

We based our operations on a Quality Management System in fulfilment with ISO 9001:2000 norms and other last-generation methodologies, which allow us to offer client-oriented high quality products and services.

We work to develop our personnel's professionalism and made a strict selection of our suppliers, strategic partners and allies.

The systematic and permanent fulfilment of all our quality objectives, which we periodically evaluate, analyzed and improved; have positioned us internationally like a company recognized by our headings for all type of projects world-wide
