Management on Line (MoL)

The Management On Line concept [Corporate Portals Division], developed by our company allows you to manage the most important operations of your organization through:

- Development, implementation and tracking of strategic, tactic and operational plans.
- Situational Analysis of your organization's internal and external environment.
- Knowledge Management.
- Electronic Document Management.
- Electronic Workflows (processes).
- KPIs.
- Task Assignment.
- Virtual work spaces for every organizational unit.
- Planning on a organizational unit level.
- Project management.
- Supplier management.
- Client management.
- Quality Management System according to ISO 9001:2000
- Portal Personalization. The majority of functionalities of our portal fit every work methodology, schema and management model.
